

The following items are to be scored by the Audit Reviewer according to Partnerships guidelines. Auditors **must** receive a minimum score of 80% overall to pass the Quality Assurance review. Feedback given to auditors should reflect the findings noted below. *If less than 100% is awarded for any of the bold criteria, the auditor must verify with the CP/reviewer that a correction was made.*

Element Five	Score	Draft	Final Score	Notes
Scores are applied according to audit instructions/guidelines. (1 point per question. 9 points available)	9	2	8	2 nd review: 5.4 requires further correction
Validation methods applied as per instructions. (1 point per question. 9 points available)	9	2	9	Correct validation methods applied.
For each question, notes adequately justify the scoring and there is consistency between notes and score awarded. (4 points per question. 36 points available)	28	2	36	5.4, 5.9 2 nd review: corrected
Contradictions exist between one question and another. (-5 for each question affected by contraction)	0	2	0	No contradictions found in Element.
Program "strengths" are noted for the element and are appropriate to the notes and scoring. (Rating: 0, 5 or 10)	10	2	10	Strengths are noted for the Element.
Suggestions given are clear and actionable, and appropriate to the notes/score for the element. (Rating: 0, 5, 10, 15 or 20)	20	2	20	SFIs are clear and actionable.
Element Total:	76/84		83/84	Running Total 464/528

Element Six	Score	Draft	Final Score	Notes
Scores are applied according to audit instructions/guidelines. (1 point per question. 6 points available)	6	2	6	Scores have been applied according to the guidelines.
Validation methods applied as per instructions (1 point per question. 6 points available)	6	2	6	Correct validation methods applied.
For each question, notes adequately justify the scoring and there is consistency between notes and score awarded. (4 points per question. 24 points available)	24	2	24	Notes adequately justify the scores.
Contradictions exist between one question and another. (-5 for each question affected by contraction)	0	2	0	No contradictions found in Element.
Program "strengths" are noted for the element and are appropriate to the notes and scoring. (Rating: 0, 5 or 10)	10	2	10	Strengths are noted for the Element.
Suggestions given are clear and actionable, and appropriate to the notes/score for the element. (Rating: 0, 5, 10, 15 or 20)	20	2	20	SFIs are clear and actionable.
Element Total:	66/66		66/66	Running Total 530/594

Element Seven	Score	Draft	Final Score	Notes
Scores are applied according to audit instructions/guidelines. (1 point per question. 7 points available)	6	2	7	7.1 2 nd review: corrected
Validation methods applied as per instructions (1 point per question. 7 points available)	7	2	7	Correct validation methods applied.
For each question, notes adequately justify the scoring and there is consistency between notes and score awarded. (4 points per question. 28 points available)	22	2	28	7.1 2 nd review: corrected
Contradictions exist between one question and another. (-5 for each question affected by contraction)	0	2	0	No contradictions found in Element.
Program "strengths" are noted for the element and are appropriate to the notes and scoring. (Rating: 0, 5 or 10)	10	2	10	Strengths are noted for the Element.
Suggestions given are clear and actionable, and appropriate to the notes/score for the element. (Rating: 0, 5, 10, 15 or 20)	20	2	20	SFIs are clear and actionable.
Element Total:	65/72		72/72	Running Total 595/666

Element Eight	Score	Draft	Final Score	Notes
Scores are applied according to audit instructions/guidelines. (1 point per question. 9 points available)	8	2	8	8.2 c/e, 2 nd review: 8.2 e) requires further correction
Validation methods applied as per instructions. (1 point per question. 9 points available)	9	2	9	Correct validation methods applied.
For each question, notes adequately justify the scoring and there is consistency between notes and score awarded. (4 points per question. 36 points available)	32	2	32	8.2 c/e, 2 nd review: 8.2 e) requires further correction
Contradictions exist between one question and another. (-5 for each question affected by contraction)	0	2	0	No contradictions found in Element.
Program "strengths" are noted for the element and are appropriate to the notes and scoring. (Rating: 0, 5 or 10)	10	2	10	Strengths are noted for the Element.
Suggestions given are clear and actionable, and appropriate to the notes/score for the element. (Rating: 0, 5, 10, 15 or 20)	20	2	20	SFIs are clear and actionable.
Element Total:	79/84		79/84	Running Total 674/750

Element Nine	Score	Draft	Final Score	Notes
Scores are applied according to audit instructions/guidelines. (1 point per question. 13 points available)	12	2	13	9.5 2 nd review: corrected
Validation methods applied as per instructions. (1 point per question. 13 points available)	13	2	13	Correct validation methods applied.
For each question, notes adequately justify the scoring and there is consistency between notes and score awarded. (4 points per question. 52 points available)	32	2	52	9.3, 9.5, 9.9, 9.10a, 9.12 2 nd review: corrected
Contradictions exist between one question and another. (-5 for each question affected by contraction)	0	2	0	No contradictions found in Element.
Program "strengths" are noted for the element and are appropriate to the notes and scoring. (Rating: 0, 5 or 10)	10	2	10	Strengths are noted for the Element.
Suggestions given are clear and actionable, and appropriate to the notes/score for the element. (Rating: 0, 5, 10, 15 or 20)	20	2	20	SFIs are clear and actionable.
Element Total:	87/108		108/108	Running Total 761/858

Element Ten	Score	Draft	Final Score	Notes
Scores are applied according to audit instructions/guidelines. (1 point per question. 8 points available)	8	2	8	Scores have been applied according to the guidelines.
Validation methods applied as per instructions. (1 point per question. 8 points available)	8	2	8	Correct validation methods applied.
For each question, notes adequately justify the scoring and there is consistency between notes and score awarded. (4 points per question. 32 points available)	28	2	32	10.3 2 nd review: corrected
Contradictions exist between one question and another. (-5 for each question affected by contraction)	0	2	0	No contradictions found in Element.
Program "strengths" are noted for the element and are appropriate to the notes and scoring. (Rating: 0, 5 or 10)	10	2	10	Strengths are noted for the Element.
Suggestions given are clear and actionable, and appropriate to the notes/score for the element. (Rating: 0, 5, 10, 15 or 20)	20	2	20	SFIs are clear and actionable.
Element Total:	74/78		78/78	Running Total 835/936

Overall Report	Score	Draft	Final Score	Notes
Contradictions Exist from one Element to Another. (-15 for each instance of a contradiction from element to element)	0	2	0	No Contradictions Between Elements.
Element Score Calculated Incorrectly. (-5 for each miscalculation identified.)	0	2	0	Element Scores Correctly Calculated.
Total Deducted from Overall Score	0		0	Grand Total 835/936

The following items are to be scored "Yes" or "No." All items must be scored "Yes" before the report can be approved by the Certifying Partner.

Overall Report	Yes/No	Draft	Notes
Report has a Minimum of Grammar and Spelling Errors	Yes	2	Report has Minimal Grammatical Errors.
Ex. Summary includes key suggestions for improvement and key process strengths.	Yes	2	Executive Summary is Complete.
Summary Score Sheet accurately represents overall scores.	Yes	2	Score is Accurate.

QA Review Summary

Solomon:

Thank you for submitting this COR Maintenance audit report for Fieldcore Services to the Alberta Association for Safety Partnerships.

This audit will provide the management and employees at this organization with a good tool to recognize their high quality health and safety processes and also supplies them with practical and helpful recommendations for improvement. The Executive Summary is informative and well written, highlighting Strengths and Suggestions for Improvement for each Element.

You have provided valid examples of hazards, control measures, processes and procedures which the organization has integrated into their health and safety program. There are no contradictions between one question or element and another.

Points have been deducted for questions in Elements 1,2,3,4,5,7,8,9 and 10 for:

- Scores not being applied according to audit instructions/guidelines;
- Notes do not adequately justify the scoring/lack of consistency between notes and score awarded.

These are considered to be "critical errors" and as such, corrections must be made prior to the audit being processed through AASP and Partnerships.

Please ensure corrections are made as noted on the sticky notes throughout the audit and on the review sheet above. Please check the entire report as there may be corrections required that did not result in a deduction in scoring. Once the corrections have been made, resubmit the audit to AASP so the corrections can be verified. AASP needs to have the most current and accurate copy on file.

Regards,

Reviewer #119

2nd Review:

A second review has now been completed on this audit report resulting in a score of 929/936 = 99%.

Thank you for making the corrections however some errors still require correction as indicated on the Review Sheet above and on sticky notes throughout the report.

Once the corrections have been made, please resubmit the audit so the corrections can be verified. Another review is not required.

Reviewer #119
