

Instructions for URL Link Access

- ✓ Single Sign-On (SSO) login credentials required to access forms
- ✓ Suggested Browsers: Internet Explorer or Google Chrome (*faster*)
- ✓ Delete Cookies/History before trying to access URL Link
- ✓ **Use MyApps Plus** - Install if MyApps Classic connection is unstable or if you cannot access required systems.
http://sc.ge.com/*myappsplusdownload

NOTE: If PC has not connected to the GE network (GE LAN or BLUESSO) for 90 days or more, [validate your account](#) prior to connecting to MyApps Plus or F5 VPN

- *Select 'Open' – Word Doc will automatically download to your device.*
- *In some cases, you may see the system generate a 'save as' dialog box to download document to your computer.*

HTTP Error 400

Bad Request error – which means that the request sent to the website server was somehow incorrect or corrupted and the server could not understand it. May have something to do with server connection.

How to fix:

- Clear your browser's cookies and cache
- Check for errors in the URL address
- If IE browser is not working, try accessing site using Chrome
- Refresh page
 - Restart computer if all above fails
